

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

(I am a soon to be college student and it is hard enough for me to afford my TrackFone as it is, but will be impossible for me to if the prices go up anymore. I use my phone mostly for safety reasons including getting help if I get into an accident in the middle of now where. PLEASE do not raise the taxes and cause TrackFone to raise their prices, otherwise I will be commuting almost two hours a day, with no way of calling for help if I get into trouble! Thank you very much for your time.)

Keep the USF Fair!

Sincerely,

Jessica Stainbrook
